## CATÁLOGO

REV. MARZO 2025

**INGENIERÍA Y SOLUCIONES**  
PARA LA CONDUCCIÓN DE FLUIDOS

## TERMINALES PARA PRENSAR (SERIE 300)

La integridad y seguridad de los sistemas hidráulicos de alta presión dependen fundamentalmente de la calidad de sus conexiones. Los terminales/fittings son el punto más crítico para prevenir fallas y fugas bajo condiciones extremas.

Este catálogo se enfoca en ofrecer una gama completa y confiable en terminales para prensar, garantizando la transferencia óptima de potencia y la seguridad operativa, logrando la máxima operatividad y longevidad de los equipos.

CAÑIFLEX, ofrece la SERIE 300 con su sistema de FUGA CERO, la cual ha sido diseñada para ofrecer un rendimiento y una fiabilidad superior en los entornos hidráulicos más exigentes, como alta presión en maquinaria, equipos de construcción, agrícolas e industriales. Fabricados en Acero al Carbono de Alta Resistencia (con opciones en Acero Inoxidable para entornos corrosivos), fabricación alineada según normas internacionales SAE J514-J516-J518-J1453-ISO 8434-1-2-3. -
